RESPONSE TO RESTRICTION REQUIREMENT

In response to the Restriction Requirement dated March 6, 2003, applicants elect the invention of Group V, drawn to the embodiment of methods of preventing or treating graft versus host reaction by administering a protein substance that modulates signal transduction by AILIM. In response to the requirement for election of species, applicants elect an antibody that binds to AILIM. Claims 18-22 read on the elected species.

As detailed in paragraph 4 of the Restriction Requirement, upon allowance of linking claim 18, the restriction as to Groups V and VI shall be withdrawn and any claims depending from or otherwise including all of the limitations of the allowable linking claim will be entitled to examination in the present application.
